

STAFFING: Donna Rosado reports that staffing is adequate and they are in good place but need more nurses and someone at the reception.

ACTIVITIES OFFERED AT FACILITY:

The facility makes a good effort to offer residents activities that prove to be fun and engaging for the residents that attend.

-Staff and residents, ones that can, did participate in the Christmas day parade in December 2025.

-Holiday Party was enjoyed by all.

-The Nursing home vehicle is working and staff is able to do field trips again. They recently went to Salvation Army and Dollar store. Those residents that can participate do enjoy the outings.

PROJECTS/PLANS:

1. The facility is constantly being worked on to upgrade its look and/or fix things.
2. Roof work is complete.
3. AC issues seem to be resolved.
4. Because of some city transportation issues and reliability the facility has to rely more on their vehicle to take residents to and from their appointments.

ISSUES:

1. No care issues to report on, things are running smoothly.

Respectfully submitted,

Paulina Smith

Lower Florida Keys Hospital District Board Nursing Home Advisory Representative
